Digital COB Strip Light

Product Specifications：
•Light Type: Digital COB Strip Light
•Voltage: DC5V
•Voltage: 15-18W/m
•LED Type: SK6812RGB
•PCB ： white
•LED ： 332leds/Pixels/m
•PCB Width: 10mm
•Light Color: RGB
•Total Length: 1/2/3/4/5m（optional）
•Waterproof: IP21/IP65/IP67/IP68
•Cuttable & Flexible: Yes, 1.5cm can be cut, there are solder joints on the back of the light bar
•Double-sided Tape: Yes
•Working Temperature: -20 ° to 50 °
•Life Span: 50000+ hours

FRONT

SK6812 Colorful Smart Flexible LED Strip, Bendable.

Double-Sided Thermal Adhesive

Compared with 3M glue, the thermal conductivity of double-sided thermal glue is easier to dissipate the heat of the light bar, and it is more viscous than 3M glue.

BACK

COB LED Strip Each 15mm Can Be Cuttable,Remaining LED Still Can Word.

2mm

0.23mm

Male Connector(Data Output)

Female Connector(Data Input)

Color Transition is Softer

COB LED Strip is Flexible Than
SMD LED Strip

VS

Notes:

1)Pls do not install the LED strip in wet environment.
2)Pls cut the LED strip according to cutting marks.
3)Pls keep the LED strip unfoldable before usage to avoid over heat.
4)Pls provide enough DC5V for the led light.

Address: 4th Floor, Building C, No. 47, Baoshi East Road, Shuitian Community, Shiyan Street, Baoan District, Shenzhen, Guangdong, China.
